Beginning in 1938 there was another recovery in business lasting throughout World War II, but this did not help the stock market much until 1942. With the exception of several relatively brief adjustment periods, our country has enjoyed good business for about 23 years.

What of the Future?

The preceding one hundred years teach two lessons:

(1) That there has always been an economic race between inflation and production. These inflations were of different kinds,—stock market, commodity, political; but they always gave business a "shot in the arm". Fortunately, increased production absorbed this . . . the great era of railroad building; opening of the South and West to farming; and finally increased commodity production due to inventions and advertising, accompanied by the electrical, chemical, and automotive eras.

(2) That when each prosperity period came to an end, it was from an unexpected event,—a great fire, an earthquake, or the failure of some banking house

Item No. 24 Mr. Norman J. Szymoniak, Attorney at Law, was granted the floor and complained to the Town Board that noxious odors have been pouring out of the stack at a distilling plant operated by Solvent Specialties, Inc., at 4831 Genesee Street, near Rein Road.

Mr. Szymoniak related to the Board that he had understood that Dr. Louis Vendetti, Town Health Officer, had demanded the arrest of E.J. Monks, Secretary of the firm, for not complying with the Air Pollution Ordinance of the Town of Cheektowaga.

Mr. Szymoniak presented to the Board various photographs taken at the scene of the operation.

Mr. Szymoniak requested the Town Board to give him information relating to the date that the permit was issued for the operation.

Councilman Bystrak told the Board that he has had some calls on the operation of said distillery, and that he has checked with the building permits and has found that no permit has been issued.

Mr. Szymoniak made a request that the operation be stopped at once.

Carl Trafalski, Building & Plumbing Inspector, insisted that no permit was necessary due to the fact that there is no building or factory on the premises.

Supervisor Holtz related to the Board that in the City of Buffalo the same operation was not obnoxious.

Albert B. Forrest, representing the Central Council of Volunteer Fire Companies, was granted the floor and said that he investigated the distilling operation to see whether or not a fire hazard existed on the premises and, in his opinion, none did.

At the request of the Town Attorney, the matter was referred to the Air Pollution Board for further investigation.

Item No. 25 Moved by Councilman Bystrak, seconded by Councilman Trojanoski, to adjourn.
