BOND RESOLUTION, DATED JANUARY 20, 1964, AUTHORIZING THE ISSUANCE OF \$2,750,000 SERIAL BONDS OF THE TOWN OF CHEEKTOWAGA, IN THE COUNTY OF ERIE, PURSUANT TO THE LOCAL FINANCE LAW.

-----  
WHEREAS, Sewer District No. 5, hereinafter described is a sewer district of the Town of Cheektowaga, in the County of Erie, duly established by the Town Board of said Town, and as such, has constructed, maintained and operated a sanitary trunk sewer system for the collection and disposal of sewage within said District, in accordance with Article 12 of the Town Law of New York, and the purpose hereinafter described is a special improvement authorized by said Article 12; NOW, THEREFORE,

BE IT RESOLVED, by the Town Board of the Town of Cheektowaga, in the County of Erie, as follows:

Section 1. The Town of Cheektowaga, in the County of Erie, shall issue its Serial Bonds of the aggregate principal amount of \$2,750,000, pursuant to the Local Finance Law of New York, in order to finance the specific purpose hereinafter described.

Section 2. The specific purpose (hereinafter referred to as "purpose") to be financed pursuant to this resolution is the construction of additional facilities for the sewage disposal system maintained by Sewer District No. 5 of said Town to consist of the following:

#### PRIMARY SETTLING TANK UNITS

It is proposed to add three primary settling tanks, each 33 feet wide by 100 feet long and having an average side water depth of 12 feet. Sludge and scum removal facilities will be provided. Two new sludge pumps will be installed in a new brick enclosure under the existing grit chambers. These pumps will be used to pump sludge and scum from the Primary Settling Tanks back to a sludge-receiving well at the sludge digestion tank assembly. Space will also be provided in this area for the winter storage of the sludge bed loader.

#### FINAL SETTLING TANKS

It is proposed to add three final settling tanks each 37 feet wide by 110 feet long and having an average side water depth of 8 feet. Sludge removal facilities will be provided. A few piping changes will be required to connect the present sludge pump piping to the hoppers of the new tanks. All final tank sludge will be returned to the plant influent preceding the primary settling tanks.

#### SLUDGE DIGESTION FACILITIES

There are at present four 40 foot diameter tanks and one 75 foot diameter tank. It is proposed to add two new 75 foot diameter tanks each equal in volume to the present 75 foot tank. The side water depth of all tanks is about 24 feet.

Two of the 75 foot tanks will be used as Primary Sludge Digestion Tanks and the third as a Secondary Tank with gas holder. The four 40 foot tanks will also be used as secondary units.

The area between the three 75 foot tanks will be enclosed and will house equipment for treating the sludge. This equipment will consist of such major items as three plunger sludge pumps

#### Item No. 20 Cont'd

three sludge recirculation pumps and two sludge heaters. There will also be the necessary interconnecting piping, valves, etc. within this structure.

#### Sludge Disposal Building

It is proposed to construct a new Sludge Disposal Building to house two 8 foot diameter by 8 foot long vacuum filters. The dried sludge will discharge onto a horizontal belt conveyer, the direction of travel of which can be reversed. At one end of the belt, the dried sludge will discharge into a closed conveyer which will elevate the sludge to a point where it will discharge into an incinerator to be burned. By reversing the belt, the dried sludge can be discharged into a hopper and then into a truck at the lower level. Necessary space and equipment will be provided for chemical storage and treatment of the sludge prior to filtration.

In addition, the Sludge Disposal Building will provide space for truck storage and other miscellaneous equipment used by the sewer crews in the Town. Office space, toilet and locker facilities, and lunch room, will also be provided.

#### High Rate Trickling Filters

Two 150 foot diameter high rate stone filters will be constructed. These new filters will operate in conjunction with the existing 100 foot diameter unit to treat the primary tank effluent in proportion to the relative size of the filter units. Pumping facilities for recirculating the filter effluent in properties to the inflow will be increased proportionately.

#### Miscellaneous Remodeling of Existing Structures

Under this heading, there were several items of work to be undertaken as follows:

##### a) Existing Vacuum Filter Building

This building will be remodeled to include a larger laboratory on the second floor, office space for the Plant Superintendent on the ground floor, and space for telemetering instruments to receive operational signals from outlying pump stations and various instruments throughout the plant. The existing vacuum filter will be removed from this building.

##### b) Existing Sludge Control Building

It is intended to renovate the basement of this structure particularly in regard to the piping and valve arrangement.

##### c) Existing Pump Station

It will be necessary to increase the pumping facilities in this structure to meet the increased hydraulic capacity of the plant. This will involve some piping changes and pump control alterations. It is also proposed to add screening equipment in the wet well portion of the structure.

#### Miscellaneous Items of Work

There will also be included in the construction program outside and inside piping, site improvement work as required by the new construction above outlined, and the appurtenant electrical and mechanical work for the entire project. Also, the existing glass-

Item No. 20 Cont'd

covered sludge bed will be demolished and enclosures over the primary tank sludge wells will be constructed; also, a plant water supply will be provided, as will a pipe tunnel, chlorination additions, grit chamber inlet revisions, and an increase in outfall capacity, in accordance with a resolution authorizing said improvement adopted by the Town Board of said Town on November 19, 1962 pursuant to the provisions of Section 202-b of the Town Law of New York.

Section 3. It is hereby stated that (a) the maximum cost of said purpose, as estimated by the Town Board, is \$2,750,000, and (b) no money has heretofore been authorized to be applied to the payment of the cost of said purpose, and (c) the Town Board plans to finance the cost of said purpose entirely from funds raised by the issuance of said Serial Bonds, and (d) all such cost is to be paid by assessments upon benefited real property in an area less than the area of said Town, and (e) the proposed maturity of the obligations authorized by this resolution will be in excess of five years.

Section 4. It is hereby determined that said purpose is an object or purpose described in Subdivision 4 of Paragraph a of Section 11.00 of the Local Finance Law, and that the period of probable usefulness of said purpose is thirty years.

Section 5. This resolution shall be published in full by the Town Clerk of said Town, together with a notice in substantially the form prescribed by Section 81.00 of said Local Finance Law, and such publication shall be in the DEPEW HERALD AND CHEEKTOWAGA NEWS a newspaper published and having a general circulation in said Town. The validity of said Serial Bonds or of any bond anticipation notes issued in anticipation of the sale of said serial bonds may be contested only if such obligations are authorized for an object or purpose for which said Town is not authorized to expend money or the provisions of law which should be complied with at the date of publication of this resolution are not substantially complied with, and an action, suit or proceeding contesting such validity is commenced within twenty days after the date of such publication; or if said obligations are authorized in violation of the Constitution of New York.

Section 6. Subject to the terms and conditions of this resolution and of the Local Finance Law, and pursuant to the provisions of Sections 30.00, 50.00 and 56.00 to 60.00, inclusive, of said Law, the power to authorize bond anticipation notes in anticipation of the issuance of the Serial Bonds authorized by this resolution and the renewal of said notes and the power to prescribe the terms, form and contents of said Serial Bonds and said bond anticipation notes, and the power to sell and deliver said Serial Bonds and any bond anticipation notes issued in anticipation of the issuance of such bonds is hereby delegated to the Town Supervisor, the Chief Fiscal Officer of the Town. The Town Supervisor is hereby authorized to sign any Serial Bonds issued pursuant to this resolution and any bond anticipation notes issued in anticipation of the issuance of said Serial Bonds, and the Town Supervisor is hereby authorized to affix the corporate seal of said Town to any of said Serial Bonds or any bond anticipation notes and to attest such seal. Each interest coupon representing interest payable on such Serial Bonds shall be authenticated by the facsimile signature of the Town Supervisor.

Section 7. This resolution shall take effect immediately upon its adoption.

Super visor Weber: "I was opposed to this position. I would not deny Mr. Holtz a job. I have asked Mr. Banko to resign as he has no family ties, etc., does not pay taxes, etc."

I would recommend that Mr. Lipp or Mr. Marshall, of the highway department be appointed as a deputy to the Highway Superintendent.

Item No. 1 At a regular meeting of the Town Board of the Town of Cheektowaga, Erie County, New York, held at the Town Hall in the said Town of Cheektowaga on the 3rd day of February, 1964, at 2:30 p.m., E.S.T., there were:

PRESENT:	Daniel E. Weber	Supervisor
	Felix T. Wroblewski	Councilman
	Joseph Kornecki	Councilman
	Alancin M. Fath	Councilman
	Michael J. Kaczmarek	Councilman
	Joseph M. Trojanoski	Councilman

Item No. 2 The Town Clerk advised the Board that a copy of the previous meeting has been placed on their desk in the Council Chamber.

Item No. 3 Communication read from Mrs. Lauren J. Gratz, relating to the bad condition of Gardenvale Drive.

The Highway Department and the Town Engineer told the Town Board that the situation is entirely up to them.

Supervisor Weber told the Town Board that a special district must be formed to do away with said condition.

The Supervisor suggested that the residents of Gardenvale Drive and the Town Board meet on February 22, 1964, at 11 a.m. to talk over the situation and see if a solution to the problem can be found.

10  
26

Item No. 4 Referred to Councilman Wroblewski; Supervisor Weber and the Town Attorney communication from the Cheektowaga Improvement Association relating to Governor Rockefeller's pay as you go plan.

10  
42

Item No. 5 I wish to have my remarks spread upon the minutes of this meeting.

I was unable to attend the meeting of this Board which was held on January 20, 1964. Had I been able to attend, I would have vigorously opposed the resolution providing an annual salary of \$7,250.00 for Eugene Kurzawa, who was appointed by the Supervisor as his bookkeeper. In view of the other personnel assisting in the bookkeeping needs of the Town, it is my opinion that the duties of the Supervisor's bookkeeper are of a limited part-time nature, and that the annual salary of \$7,250.00 is substantially in excess of the reasonable value of the services of a bookkeeping character which should and will be performed by the holder of this position.
