Mr. Kenneth Meyers, Supervisor

Cheektowaga, NY 14227

Dear Supervisor Meyers:

The attached proposal is for continuing services to the Town for technical planning and design services during the 1978-79 Community Development Block Grant Fiscal Year.

As in the past, our services are not limited specifically to the responsibilities detailed on the following pages.

I will continue to ensure the Town is aware of new grant funds, assist in the preparation of applications for those funds, and appraise you and the Town Board of opportunities and programs of which you may wish to participate.

As you know in this past year we were successful in securing for the Town a $200,000 grant for Walden Avenue. We prepared an application, that is pending with the Department of Housing and Urban Development, for 100 units of Section 8 substantial rehabilitation funds for Cedargrove Heights. In addition, we shall be preparing and submitting an application under the New York State Safe Roads System for funds to ensure safe streets in Cedargrove Heights.

Further, we prepared the Town Housing Code which was necessary for the Town to receive housing rehabilitation funds. Also, we prepared detailed statistical data to enable the Town to use CDBG Funds for the Beach Road Drainage Project and the Chapel-Smith relief sewer.

These projects and applications were performed at no additional fee to the Town. I consider these efforts to be our responsibility to ensure the Town receives more than its fair share of available State and Federal Funds.

The fees for our continued services have been programmed for in the approved 1978-79 Community Development Block Grant Application. I look forward to again working with you and the Town Board whereupon we can all witness the implementation of current projects.

Sincerely,

Stuart Alexander

TO THE SUPERVISOR AND
HONORABLE TOWN BOARD MEMBERS
TOWN OF CHEEKTOWAGA

RE: Change Order on the Northeast Interceptor Sanitary Sewer

Gentlemen:

Attached for your consideration is a resolution to approve Change Order #7 on the Northeast Interceptor Sanitary Sewer Project of Amadori Construction Company, Inc.

This revision was required to restore all the existing topography in the Maryvale School District playground vicinity. The escalated restoration included earthmoving, removal of temporary fencing, rebuilding of the five (5) existing baseball diamonds and construction of an earth berm to eliminate further flooding of the playground area.

The reason for modification or need for extra work was due to unknown easement restrictions by the contractor from the signed easement agreements with the Town and the Maryvale School District. No work could commence between the months of May thru September. Construction had started in those areas in November, 1977 but was not yet completed by May 1, 1978 in those respective areas. Demobilization and restoration was required to adhere to those easement restrictions.

There will be an increase in the contract amount by the issuance and acceptance of this change order in the amount of $25,977.38.

Very truly yours,

Explanation # 1. Engineering Departments failure to honor requests and committments has left this project in limbo. The deficit in Air Conditioning & Heat Unit is due to Engineering and Architectual revisions and additions. The engineer and Architect did not consult with me on these changes. Bid came in at $23,000.00 + for the work which had budgeted $11,000.00 in 1977. All other transfers are to either eliminate deficits that exist presently or are thac are anticipated.

These changes were estimated to save approximately $4000.00 and are reflected in Alternate Item IA.

The low bidder was screened by engineering personnel and Nussbaumer & Clarke, Inc. engineers and found capable and satisfactory. It is recommended that the contract be awarded to Fluonic Corporation for Item I of the bid proposal for submitting a bid in the amount of $11,850.00. The project shall be completed as originally designed.

Re: Bids for Town Hall Parking Lot
Light Standards and Fixtures

Gentlemen:

Bids were received and opened publicly at the Regular Town Board Meeting of October 2, 1978 for the light standards and fixtures for the Town Hall Parking Lot. Nine bids were received and are as follows:

Bidder	Type	Price
Shanor	Sterner Standards & Luminaires	$17,579.00
Wesco	" " " "	$17,491.00
General Electric	" " " "	$16,920.80
Shanor	Spero Standards & Luminaires	$14,990.00
Wesco	" " "	$14,049.00
General Electric	" " "	$13,726.00
Quernback	Spalding " "	$15,586.25
Canavan-Scanlon	I T T " "	$15,236.90
R. W. Mitscher	Poles Only	$13,970.00

General Electric is the lowest bidder for the Spero Type Standard and Luminaires with a bid price of $13,726.00. After considerable study I feel it would be advisable to select the Sterner Type Standard and Luminaires at the bid price of $16,920.80. This Sterner fixture will outlast all others and has many safety features which other types do not have. These safety features are essential as the fixtures will be maintained by Town employees.

It is recommended that the bid be awarded to General Electric for $16,920.80. They are the lowest bidder of the Sterner Standards & Luminaires as well as the Spero.

TO THE SUPERVISOR AND
HONORABLE TOWN BOARD MEMBERS
TOWN OF CHEEKTOWAGA

RE: Northeast Interceptor Change Order No. 7, Contract No. 1

Gentlemen:

The attached resolution is submitted for your approval of Change Order No. 7 on the Northeast Interceptor Project of the Sewer District #5 Water Pollution Control Program. This Change Order is an addition of $117,000.00 to the total contract due to an addition of 180 L.F. of 72" diameter steel liner plates to be installed under existing overhead lines and underground utilities. Grade alignment and specifications of proposed 42" diameter RCP carrier pipe shall remain the same.

The reason for the change was the location of existing utility lines which transverse the proposed interceptor on Niagara Mohawk property. The oil companies and Niagara Mohawk's requirements are that an open cut will not be permitted in the area of utilities. It was necessary to tunnel and install the liner to install the sanitary sewer. The utilities transversed were a 24" diameter water transmission line, 12" diameter high pressure oil line, 8" diameter National Fuel gas line, 8" diameter Arco oil line and overhead electrical power lines of Niagara Mohawk.

The Department of Environmental Conservation and the Environmental Protection Agency requires that any change order in excess of $100,000 must receive prior approval by them. This approval for additional funding has been received.

Change Order No. 7 -- Add $117,000.00.

Very truly yours,

and intensity and duration as to be detrimental to the life or health of any individual in a residential, apartment-hotel, or business district, (as defined by the zoning ordinances of said town) is prohibited. Unnecessary noise in any such district during the hours from 12:00 o'clock P.M. to 7:00 o'clock A.M., which unreasonably interferes with the sleep, comfort and repose of individuals therein is prohibited.

UNREASONABLE NOISE -- Any excessive or unusually loud sound or any sound which either annoys, disturbs, injures, or endangers the comfort, repose, health, peace or safety of a reasonable person of normal sensitivities or which causes injury to animal life or damage to property or business. Standards to be considered in determining whether "unreasonable noise" exists in a given situation include but are not limited to the following:

(1) The volume of the noise.

(2) The intensity of the noise.

(3) Whether the nature of the noise is usual or unusual.

(4) Whether the origin of the noise is usual or unusual.

(5) The volume and intensity of the background noise, if any.

(6) The proximity of the noise to residential sleeping facilities.

(7) The nature and the zoning district of the areas within which the noise emanates.

(8) The time of the day or night the noise occurs.

(9) The time duration of the noise.

(10) Whether the sound source is temporary.

(11) Whether the noise is continuous or impulsive.

First paragraph of Section I, which heretofore reads as follows:

1. The making of any noise in any street or public place or by means of aircraft for commercial advertising purposes. The advertisement or calling attention to any advertisement, article, business, calling or profession upon any public street, sidewalk, or entrance to a place of business within the Town of Cheektowaga by means of any horn, megaphone, siren, bell, radio, mechanical piano, phonograph, graphophone, victrola, or any other sound producing or sound amplifying mechanism, instrument or device.

be and it hereby be amended to read as follows:

The advertisement or calling attention to any advertisement article, business, calling or profession upon any public street, sidewalk, or entrance to a place of business within the Town of Cheektowaga by means of any horn, megaphone, siren, bell, radio, mechanical piano, phonograph, graphophone, victrola, or any other sound producing or sound amplifying mechanism, instrument or device.

Third paragraph of Section I, which heretofore reads as follows:

The operation in any store, stand, office, building, or other place within the Town of Cheektowaga, of any horn, megaphone, siren, bell, radio, mechanical piano, phonograph, graphophone, victrola, or other sound producing or sound amplifying mechanism, instrument or device when the sound thereof is sufficiently audible upon any public street or sidewalk to attract and congregate a crowd thereon. This subdivision shall not be construed as prohibiting the demonstration or use in any musical store of any musical instrument or the giving of musical instruction in any store or other place of business, provided such demonstration or use of such musical instrument be not stepped-up by the use of amplifiers, horns or other sound magnifying devices.

be and it hereby be amended to read as follows:

No person shall operate, use or cause to be operated or used any sound reproduction device for commercial or business advertising purposes or for the purpose of attracting attention to any performance, show or sale or display or merchandise in connection with any commercial operation, including but not limited to the sale of radios, televisions, phonographs, tape recorders, phonograph records or tapes; in front or outside of any building, place or premises, abutting on or adjacent to a public street, park or place, where the sound therefrom may be heard upon any public street, park or place or from any stand, platform or other structure; or anywhere on public streets, parks or places. Nothing in this subsection is intended to prohibit sounds emanating from sporting, entertainment or other public events where such devices are used, and a permit has been issued.

Fourth paragraph of Section III, which heretofore reads as follows:

The supervisor is hereby authorized, by written order, to suspend any of the provisions of this section in connection with any holiday celebration or upon any occasion of special public interest, for such time and upon such conditions as shall be prescribed by him.

The provisions of this section shall be liberally construed to prevent excessive, unreasonable, disturbing and unnecessary noise, due consideration being given to the circumstances, time of day and particular location of each violation.

be and it hereby be amended to read as follows:

Any person seeking a variance pursuant to this section shall file an application for a permit with the Town Board. The application shall consist of a letter signed by the applicant and containing a legal form of verification. Such letter shall contain information which demonstrates that bringing the source of sound or activity for which the variance is sought into compliance with this chapter would constitute an unreasonable hardship on the applicant, on the community or on other persons. In addition, the following information shall be provided:

(1) The plan, specifications and other information pertinent to such sources.

(2) The characteristics of the sound emitted by the source, including but not limited to the sound levels, the presence of impulsive sounds and the hours during which such sound is generated.

(3) The noise abatement and control methods used to restrict the emission of sound.

The Town Board upon receipt of such application and upon payment of any fee which shall be required by resolution of the Town Board, shall set the matter down for a public hearing to be held within thirty (30) days from the date the application is submitted. The Town Board shall cause publication of such public hearing to be given in the official newspapers of the Town in the same manner as an application to the Zoning Board of Appeals is published. The applicant in like manner shall give notice of the application by certified mail to all property owners surrounding the sound source site within a radius of two hundred (200) feet from the borders of said site.

In determining whether to grant or deny the application for a permit, the Town Board shall balance the hardship to the applicant, the community and other persons of not granting the variance against the adverse impact on the health, safety and welfare of persons affected, the adverse impact on the property affected and any other adverse impacts of granting the special permit.

The Town Board shall have the power to impose restrictions, conditions and the recording of covenants upon any sound source site, including time limits on permitted activity in the event that it shall grant any permit hereunder.

By advertising an affair to be held, without first applying for a permit, will be in violation of this Ordinance.

Item No. 11 Cont'd.

Any person or corporation violating the provisions of this section shall be liable to a fine or penalty of not more than $250.00 for each offense.

Proposal for Mapping & Drainage
Studies for the Northeast Area
NCI File No. 77-917

Mr. Chester L. Bryan, P.E.
Town Engineer
Town Hall
Broadway and Union Road
Cheektowaga, New York 14227

Dear Sir:

The report for the above studies would accomplish the following: investigate types of terrain, development, soil and zoning to determine present and future runoff volumes; investigate capacities of existing culverts, channels and conduits; propose improvement of existing drainage systems; and propose new drainage systems. The work would include the preparation of map sections for inclusion in the "Drainage Systems Ordinance and Official Drainage Systems Map".

The project area is shown on the enclosed print of Exhibit "A". The southerly section of the project area drains into the Scajaquada Creek. Any improvements that may be proposed for the southerly section of the project area would involve the Village of Depew.

The scope of work would include the following items:

A. Determination of topography and existing conditions

1. By preparation of 1" = 200' scale contour maps based on aerial photography and field measurements. Such maps would show sections of adjacent storm drainage districts and the northwesterly section of the Village of Depew.

2. By reviewing available subsoil information and surface soil data.

3. By reviewing plans that may be available from the Town of Cheektowaga, the Village of Depew, the Corps of Engineers, and other agencies.

4. By measuring existing key drainage structures, ditches and channels to determine present capacities.

B. Development of alternative designs

1. By proposing improvement of existing drainage systems where necessary.

2. By proposing new drainage systems where required to assure orderly, future development.

3. By preparing cost estimates for drainage systems that would be proposed to be constructed in the near future.

4. By proposing right-of-way widths.

Fees and reimbursable expenses

The fee for the study outlined above would be $51,135.00 plus reimbursement at cost of $8,200.00 for aerial photography and mapping. Total costs for the proposed drainage studies for the northeast area would therefore be $59,335.00.

We thank you for the opportunity to submit this proposal and hope to be of further service to the Town of Cheektowaga.

Respectfully submitted,

RE: Change Order No. 2
Parts I and II
Autumnwood Drainage Project

Gentlemen:

The engineering firm of Nussbaumer & Clarke, Inc. has submitted Change Orders on the above project and recommend their approval.

Change Order No. 2 - Part I

This Change Order was required as a standard vertical curb was anticipated but in effect, an "L" shaped curb was found to be on site. The additional concrete curb footer made it impossible to support the curb resulting in serious displacement. This Change Order is for payment of $7,062.50 as full compensation for the above claim to John R. Schuler, Inc. for replacement of 1,130 feet of additional curbing on Autumnwood and Parwood Drives in Part I of the Autumnwood Drainage Project.

Change Order No. 2 - Part II

This Change Order was for the same reason as above but for 470 additional feet of curbing on the Autumnwood Drive portion of Part II of the project. The cost of this additional curbing claimed by the contractor and verified by our consulting engineers is $2,937.50.

Attached are two resolutions requesting your consideration.

RE: Change Orders on the Northeast Interceptor Sanitary Sewer Contract #1

Gentlemen:

Attached for your consideration are Change Orders #5, #6 and #8 on the Northeast Interceptor Sanitary Sewer Project of Amadori Construction Company Inc. Each Change Order has been reviewed by the consulting engineers of Nussbaumer & Clarke, Inc. and recommend the increases or decreases to the contract in letters dated October 12, 1978 and October 31, 1978. Noted below are the reasons for and descriptions of each Change Order.

Change Order #5 - Add $44,035.07

The reason for modification was to extend the limitations of the newly installed interceptor to include the two existing businesses which are currently on inferior septic systems. It was necessary to add 215 LF of 8" diameter collector sewer from an existing chamber in a northerly direction to service two existing businesses on the west side of Union Road north of the Conrail railroad tracks. This will require installation of 108 LF of 24" steel encasing by boring and jacking, 26 LF of 24" diameter steel encasing by open cut method and 1 std, 24" MH.

Change Order #6 - Add $13,075.00

The reason for the change was due to subsurface conditions found different after recent investigation. Due to the variation of bearing qualities in adjacent soil layers, it has been determined that steel encasing will be the most effective method of tunneling in this area. It was necessary to change the encasing material used for continuous boring and jacking from 60" RCP to 58" diameter X .750 wt. steel pipe. Location of tunnel and 125 LF of proposed 42" diameter RCP will remain the same as will grade and alignment.

Change Order #8 - Decrease $132,669.42

The reason for this change was to revise the alignment of 731 LF of the main line interceptor sewer to eliminate construction through a potentially hazardous area containing adverse soil conditions and topography not condusive to this construction operation. All restrictions administered by the property owner, property occupant, NYSDOT and the Army Corps of Engineers under whose jurisdiction the contractor is liable, shall be strictly adhered to.

It was advisable to move the 42" diameter RCP main line interceptor sewer from Sta. 53+28 to Sta. 60+59 from the north slope to the south bank of the U Crest Ditch, staying within the existing U Crest Permanent easement. The revised alignment will revise a considerable amount of sheetpiling from permanent to temporary.

The Department of Environmental Conservation and the Environmental Protection Agency requires that any change order in excess of $100,000 must reveive prior approval by them. This approval has been received.

BY ORDER OF THE TOWN BOARD OF THE TOWN OF CHEEKTOWAGA, ERIE COUNTY NEW YORK.

Dated: December 18, 1978

RICHARD M. MOLESKI

Town Clerk

Item No.6 Motion by Supervisor Meyers, seconded by Councilman Swiatek

WHEREAS, under the law all real estate taxing authorities in New York State are now required to assess real estate at full value or market value in place of arbitrary and meaningless assessed values heretofore used; and

WHEREAS, if each city, town or real estate taxing authority in Erie County were to conduct its own revaluation program to determine the full value or market value of the real property upon which it levies taxes, the cost thereof would be substantially higher than it would be if that city, town or taxing authority were to cooperate within the County of Erie which has contracted for such a program throughout the County; and

WHEREAS, the cooperation of the cities and towns and their assessors is needed in order to collect accurate data for the production of property values; and

WHEREAS, the resolution of the Erie County Legislature which was adopted on October 19, 1978, approving the amended contract with PRC Jacobs, Inc. to finish the program also called for alll towns, cities, and assessors to notify the Erie County Legislature within 60 days of their acceptance of the program;

NOW, THEREFORE, BE IT

RESOLVED that the Town of Cheektowaga has determined that it will cooperate with the County of Erie in the revaluation (of real property) program heretofore contracted for by said county, for the purpose of establishing the legal base for real estate taxation at full value as is now required throughout the State of New York, and it will accept and use the real property values arrived at as a result of said program provided they are reasonable and arrived at according to accepted standards and procedures for evaluating real property; and BE IT FURTHER

RESOLVED that the Town of Cheektowaga will use all its means and resources and best efforts to obtain the cooperation of its assessor to do the following:

1. To attempt reasonably to match parcels and generally cooperate with Jacobs in the reconciliation process.

2. To research the building permits in his jurisdiction issued from the beginning of data collection therein through the beginning of inventory cleanup therein and to provide Jacobs copies of all such building permits.

3. To make prompt and reasonable efforts to seek entry, make exterior measurements, collect and turn over to Jacobs necessary data, field check and defend its data respecting appealed valuations.

The engineering firm of Nussbaumer & Clarke has submitted one [1] Change Order on the above project and recommend its approval.

Change Order No. 1 - Add $1,500.00

This change was required to stabilize the channel bank at a bend in the new channel to prevent erosion. The bank was rip-rapped with stone and rock and grouted in place. Rock resulting from the excavation of the channel was used as rip-rap resulting in a reduction of the charges in the change.
