MEMORANDUM

TO: James Matecki, Director Facilities Department

FROM: Stuart Alexander

DATE: September 27, 1982

SUBJECT: Change Order #1 VARIOUS PARKS (A. Theodore Roosevelt, B. Raymond, C. Dingens, D. Dartwood, E. Nokomis)

The attached change order has been prepared to enable the Town to achieve an increase in the number of recreation facilities at nominal contract price changes, while maintaining a high quality in the final product. The increase in facilities were achieved in large part by taking advantage of existing court sub-base and base construction.

Separate work sheets have been prepared for each park included in this change order. Deducts are identified pursuant to the unit bid tabulations as received under the "Various Parks" Contract. Add items were determined via consultation with the contractor and represent equitable compensation for work performed.

For Nokomis Park we have instructed the contractor to provide security from the early evening hours through the early morning hours to ensure the newly seeded area is not vandalized or destroyed. This park has a history of vandalism and the potential cost we might incur to correct any vandalism during the "take" stage of grass growth could easily surpass the cost of security.

Funds are available within the project bond account.

RE: Change Order No. 2
Beach Road, Phase II
Drainage Improvements Project

Gentlemen:

The consulting engineering firm of McFarland-Johnson Engineers, Inc. have recommended the processing of Change Order No. 2 for the Beach Road, Phase II, Drainage Improvements Project.

The excavation for the storm sewer along Beach Road between Maryvale Drive and Hemenway Road affected approximately 2/3 of the width of the southbound lane of Beach Road. The plans called for removal and replacement of the entire southbound lane as required by the Erie County Highway Department. Upon inspection of the existing pavement during excavation, the Erie County Highway Department agreed that the structural condition of the pavement did not require that the entire depth of the southbound pavement be replaced and that milling and replacing the top inch of pavement would be sufficient. The contractor has proposed a lump sum price of $3,420.00 to mill and remove the top inch of the remaining southbound lane of Beach Road between Maryvale Drive and Hemenway Road. The overall savings of material saved as a result of the milling process will result in the net decrease of this $3,410.00.

We recommend that Change Order No. 2 to the contract for construction of Drainage Improvements on Beach Road, Phase II, decreasing the contract amount $3,410.00 from $345,115.00 to $341,705.00, be approved.

Very truly yours,

PROGRAM APPLICATION

1. PROBLEM IDENTIFICATION AND ANALYSIS

The Cheektowaga Police Department is aware of numerous drivers who operate their vehicles even after consuming alcoholic beverages to the point where their reflexes and time reaction has been impaired. Alcohol was one of the major factors of the 1,606 reported accidents occuring in the Town of Cheektowaga during 1981.

Some Officers are reluctant to make D.W.I. arrests because such arrests are time consuming,involve many court appearances, dissatisfaction with court dispositions and in some cases need additional training in D.W.I. arrest procedures, equipment and testifying.

2. PROGRAM GOALS AND OBJECTIVES

Although our department has arrested 597 persons for D.W.I. in 1981, this is only a small percentage of the violators on our public highways. In an effort to reduce D.W.I. violations, there are several avenues of approach: Education, Public Awareness and Apprehension of Violators. The approach that will have the largest impact and give the most immediate results is the apprehension of violators. We intend to increase our D.W.I. arrest by 10% and our D.W.I. conviction rate by 10%.

This department does have quantitative terms to describe project objectives, and sets them forth below because it is a requirement of this application. However, it is felt that such terms are not truly indicative of the manner in which we propose to operate and the funding we seek. What we intend to do is assign a combination of manpower from current duty assignments and from overtime assignments to specifically concentrate on the identification of and apprehension of intoxicated drivers. The degree of improvement in our performance is directly related to the intensity of assignments, which in turn is directly related to the percentage of funding from convictions that is returned to the department making that conviction possible. See section following.

3. PROGRAM DESCRIPTION

We have a up-to-date records system which keeps us informed as to where our accidents are occuring and when. It also tells us when and where our D.W.I. arrest are occuring and who is making the arrest. From this information we have decided to assign a 2 man patrol vehicle each evening, seven days a week from 9 PM (2100 hours) till midnight (2400 hours) and midnight (2400 hours) till 3AM (0300 hours) to apprehend intoxicated drivers. Their supervisor will be instructed that these Officers will not take any other calls or details but concentrate completely on D.W.I. enforcement. This will be in addition to the normal traffic division enforcement that already has been in force. For rotation purposes we will train 25 men in enforcement and court procedures. Each man receiving 32 training hours. A new breathalizer will have to be purchased, as we only have one which is very old and constantly breaking down. There will also be the expense of additional ampoules for the breathalizer and Alco-sensor. The location of operation of this D.W.I. program will vary as our records of accidents and D.W.I. arrest indicate where the need is.

The specific degree to which manpower is assigned depends upon this department being able to cover the cost of such concentrated DWI attack with receipt of the funds for which this proposal is being made. We have determined that we need sixty-five percent of the funds coming into Erie County, distributed to each police agency participating in direct proportion to the number of convictions under the program obtained. All funds so received will be applied to a sustained DWI enforcement program.

Honorable Town Board:

The Board of Fire Commissioners of South Line Fire Dist. NO. 10 have requested Highway Supervisor Fred Wnek to perform certain major improvements to our parking area at 1049 French Road. These include extension of exsisting area, installation of drains & tile in 1982 and finally to repave the entire parking area in 1983.

We understand that we must pay for all materials and the labor involved. We feel this is a very cost effective way to update our facilities and still keep our tax rate as low as possible to our residents.

Supervisor Wnek has told us we must gain your permission for this project, before he may proceed. We hope the Cheektowaga Town Board looks favorably on this project. May we express our appreaciation in advance for your assistance.

Item No. 40 Urge Erie County Legislature to approve legislation to provide $900. per lane mile reimbursement to Town for removal and control of snow and ice on County roads.

Motion by Councilman Jaworowicz, seconded by Councilman W. P. Rogowski

WHEREAS, the Town of Cheektowaga is currently responsible for snow and ice removal from approximately 62.44 lane miles of County road, AND

WHEREAS, from 1978 to 1980, the Erie County Department of Public Works provided $650.00 per lane mile reimbursement to the Town of Cheektowaga for the removal and control of snow and ice on County roads in the Town, AND

WHEREAS, in November of 1981, the Department of Public Works requested and the Legislature authorized a $25.00 increase in the per lane mile reimbursement rate for snow removal and ice control, AND

WHEREAS, the existing $675.00 reimbursement rate by no means covers the Town's actual cost of servicing a lane mile of County road during a winter season, AND

WHEREAS, it is estimated that the Town's true cost of removing snow and controlling ice on a per lane mile of County road approximates $1,200.00 to $1,300.00, AND

WHEREAS, it should be noted that the County of Erie currently received a $1,300.00 per lane mile rate of reimbursement for plowing State roads, AND

Item No. 40 Cont'd.

WHEREAS, while the County may not be in the financial position to increase the rate of reimbursement to $1,300.00 per lane mile, it ought to at least attempt to raise the rate to $900.00 per lane mile, a figure which more closely reflects the Town of Cheektowaga's actual snow removal and ice control costs, AND

WHEREAS, raising the per lane mile reimbursement rate to $900.00 would result in an approximate savings of $14,000 to the Town for each winter season, AND

WHEREAS, raising the per lane mile reimbursement rate would help assist the Town of Cheektowaga in controlling local property tax rates and in overcoming the severe economic constraints which the Town is experiencing, NOW, THEREFORE, BE IT

RESOLVED that the Town of Cheektowaga goes on record in support of and does urge the Erie County Legislature to approve legislation which would include funding in the 1982-83 Erie County Budget to provide the $900.00 per lane mile rate of reimbursement to the Town of Cheektowaga for the removal and control of snow and ice on County roads, AND BE IT FURTHER

RESOLVED that certified copies of this resolution be forwarded to the Erie County Executive, the Chairman of the Erie County Legislature and the Erie County Department of Public Works.

November 15, 1982

TO THE SUPERVISOR AND
HONORABLE TOWN BOARD MEMBERS
TOWN OF CHEEKTOWAGA

RE: 1983 G-30 Van
Award of Bid

Gentlemen:

At the regular Town Board meeting of November 1, 1982 bids were received and opened for one (1) 1983 G-30 van for the Facilities Department. Five (5) bids were received and are as follows:

BIDDER	BID
Mernan Chevrolet	$8,460.00
Gillogly Chevrolet - Proposal No. 1	$8,483.00
Maier Schule GMC	$8,530.00
Gillogly Chevrolet - Proposal No. 2	$8,982.00
Keller Chevrolet	$9,155.76

These bids were reviewed with the Central Garage Foreman, George Burst, and should be awarded to Mernan Chevrolet for the following reasons, they exceeded our specifications in the following areas:

TOWN REQUIREMENTS	MERNAN'S PROPOSAL
GVW 7100 lbs.	8,600 lbs.
Engine 305 C.I.	350 C.I.

Although we required a four (4) speed automatic transmission and Mernan offered a three (3) speed automatic, George Burst feels this is acceptable to the Town. The only other bidder that met the specifications was Gillogly's Proposal No. 2 being $522.00 more than the lowest bidder. The only difference between the two bidders is the three (3) speed instead of the four (4) speed automatic transmission. The dealers cost for the difference between transmissions is only $186.00, which still would qualify Mernan Chevrolet as the low bidder.

Therefore, it is recommended that Mernan Chevrolet, 2751 Bailey Avenue, Buffalo, New York, should be awarded the bid for submitting a net bid of $8,460.00, said bid being in the Town's best interest and meeting the specifications in material compliance.

Very truly yours,

Regarding: Rezoning Request - Losson Green Estates

Dear Honorable Town Body:

By working closely with the developer we now feel that we have resolved any problems that we felt should have been corrected after we viewed the original site plan. Our meetings have resulted in a dramatic reduction of dwelling units, placement of dwellings was determined and off-street parking areas were incorporated into the townhouse portion of the plan.

The enclosed site plan now proposes dedicated streets for the entire complex which we understand is what the Highway Department was asking for.

This Board now can offer no objection to this proposal and therefore recommends that the enclosed site plan be approved. We recommend approval to the RA District of the 14.77 acres required for the Pepperwood Townhouse project and the extension of the Retail Business District as outlined on the enclosed site plan.

Yours very truly,

Regarding: Rezoning Request - Losson Green Estates

Dear Honorable Town Body:

By working closely with the developer we now feel that we have resolved any problems that we felt should have been corrected after we viewed the original site plan. Our meetings have resulted in a dramatic reduction of dwelling units, placement of dwellings was determined and off-street parking areas were incorporated into the townhouse portion of the plan.

The enclosed site plan now proposes dedicated streets for the entire complex which we understand is what the Highway Department was asking for.

This Board now can offer no objection to this proposal and therefore recommends that the enclosed site plan be approved. We recommend approval to the RA District of the 14.77 acres required for the Pepperwood Townhouse project and the extension of the Retail Business District as outlined on the enclosed site plan.

Yours very truly,

TO THE SUPERVISOR AND
HONORABLE TOWN BOARD MEMBERS
TOWN OF CHEEKTOWAGA

RE: Sewer District #5
Sewer System
Rehabilitation Project

Gentlemen:

In the bidding of sewer rehabilitation work in Sanitary Sewer District #5, there should have been a bid item #B-4 to cover sanitary sewer cleaning of 10,245 lineal feet of 8" thru 18" sanitary sewer pipe in order to televise all sewer repairs that were made as part of the contract. Cost was established by Nussbaumer & Clarke, Inc. as $10,160.45. A bid item #B-5 should also have been included to cover T.V. inspection of this repair work. Cost was established as $20,102.00.

The final inspection of the repair work also necessitated sewer cleaning as a requirement under the aid program. Our consultants, Nussbaumer & Clarke, Inc., advise that this item was inadvertently omitted in the lengthy, complicated bid specifications. Town Board approval is requested on this omission.

Very truly yours,

TOWN OF CHEEKTOWAGA

December 15, 1982

TO THE SUPERVISOR AND
HONORABLE TOWN BOARD MEMBERS
TOWN OF CHEEKTOWAGA

RE: Leasing Storage Space

Gentlemen:

At the Regular Town Board Meeting on December 6, 1982, bids were received and opened for leasing of storage space for the Highway Department and for election machines. Two (2) bids were received as follows:

	ITEM I (Highway Use)	ITEM II (Election Machines)
Borden Losson Corp.	$3.25 per sq. ft.	$3.00 per sq. ft.
Stephen Korduba	$3.65 per sq. ft.	$3.45 per sq. ft.

The facilities were inspected by the Engineering Department, together with Mr. Alfred Wnek, Highway Superintendent, and Mr. Richard Moleski, Town Clerk.

The Borden Losson Corporation storage facility offers a larger storage area and a high-bay area. Both of these items are very desirable to Mr. Wnek who wants to avail himself of an area of 13,950 square feet. This would allow Mr. Wnek to attach highway plows indoors and give him a faster response time to snow emergencies. This larger facility also allows trucks to turn around within the enclosure. The lease for one (1) year for this storage would be $45,337.50. This is the lowest unit price bid, however, the facility does not have a sprinkler system.

The Korduba location is presently used for election machine storage. Although the unit price is higher than the Borden Losson Corporation, this facility appears to offer Mr. Moleski greater security for his equipment. The cost to move all election machines would add to the increase in total price of storage. Since this storage area is provided with a sprinkler system, we concur with Mr. Moleski that it may be in the best interest of the Town to continue

using this building for storage of expensive election machine equipment, even though the net price is higher.

In conclusion, it is recommended to this Town Board that the bid be awarded to Borden Losson Corporation, 812 Borden Road, Cheektowaga, New York 14227 for highway equipment storage of 13,950 square feet at $3.25 per square foot. It is further recommended that the bid be awarded to Stephen Korduba, 3926 Broadway, Cheektowaga, New York 14227 for election machine storage of 5,185 square feet at $3.45 per square foot. This being a higher bid but offering needed fire protection.

Very truly yours,

W I T N E S E T H :

WHEREAS, the COUNTY, pursuant to the authority granted to it by Article 43-A of the Vehicle and Traffic Law, has established a special traffic options program for driving while intoxicated (STOP - DWI) and has formulated a plan thereunder for the coordination of county, town, city and village efforts to reduce alcohol-related traffic injuries and fatalities, and

WHEREAS, the Erie County Sheriff's Department and the New York State Police are engaged in certain alcohol traffic safety law enforcement activities within the MUNICIPALITY, including the detection and arrest of persons operating a motor vehicle in violation of either Section 1192 or 511(2) of the Vehicle and Traffic Law, and

SECOND: The MUNICIPALITY, through its Justice Court and as an independent contractor, agrees to compile information and render monthly reports to the Erie County STOP - DWI Coordinator regarding any and all matters disposed of in the MUNICIPALITY'S Justice Court involving alleged violations of Sections 1192 and/or 511(2) of the Vehicle and Traffic Law. The MUNICIPALITY further agrees to maintain insurance coverage during the term of this Agreement and submit certificates of insurance in accordance with Appendix "B" attached hereto.
